Who We Are?

Visionet Systems designs, develops and supports business class software to the world's most prestigious companies. In so doing, the company recruits and retains the industries best and brightest talent that enables **Visionet** the opportunity to deliver successfully, in time and within scope. We believe that to remain competitive in the global marketplace recruiting must be a fundamental business function that is ongoing.

In this spirit we have created our Supplemental IT Staffing division, **VisiStaff**. **VisiStaff** taps into our robust internal recruiting effort to offer the best technical and subject matter experts to our clients. **VisiStaff** recruiters have been trained to follow a proven model to identify and secure the best talent available. By utilizing company supported networking and negotiating techniques, our recruiting team maintains a Best-In-Class placement ratio. The benefits are real and measurable.
